

Maram's Techniques/Strategies

- Read/Listen/Speak 10/15 minutes EVERYDAY (not once a week 2/3 hours)
- Do not forget/Always remember “WHY” you need to know/speak English? (motivation 😊)
- Do not read pre-class materials with your eyes
Read them out loud at normal/fast speed, but not slow. (IOT understand, if you read slow you speak slow)
- Make your searches (in Google) in English
- Follow the youtubers/instagram fenomens who are native.
- DO NOT watch movies IOT learn English, watch them IOT watch 😊
- IOT learn English watch Ted from its original website not from youtube. Here is the link:
[Watch TED-Ed videos | Watch | TED](#)
- The videos at this link are usually animation and less than 5 minutes.
Watch them three times:
 1. **Watch with NO SUBTITLE:** Try to understand what the topic is about and what is going on 😊
 2. **Watch with ENGLISH SUBTITLE:** Note and learn the meaning of the words you heard for the first time and probably you will use in the future.
 3. **Watch with TURKISH SUBTITLE** (with your own language): Learn what is going on really 😊

At last read the video's text (at Transcript) out loud by yourself and then talk about the video for one or two minutes and record yourself (your voice) including your comments.
